

VS Code Shortcuts

The shortcuts below use Windows/Linux bindings. On macOS, swap `Ctrl` for `⌘` (Cmd) and `Alt` for `⌥` (Option) for most of them — a handful keep `Control`, noted where they do. When in doubt, the Command Palette finds any action and shows its current binding.

The Essentials

Shortcut	Action
<code>Ctrl+Shift+P</code>	Command Palette — run any command
<code>Ctrl+P</code>	Quick Open — jump to any file by name
<code>Ctrl+,</code>	open Settings
<code>Ctrl+K Ctrl+S</code>	Keyboard Shortcuts editor
<code>Ctrl+Shift+X</code>	Extensions view
<code>Ctrl+Shift+P</code> then <code>></code>	browse all commands

Forget a shortcut? `Ctrl+Shift+P`, type what you want ("format", "split", "rename"). The palette lists the command and its key binding, so you re-learn it in place.

Editing

Shortcut	Action
<code>Ctrl+/</code>	toggle line comment
<code>Shift+Alt+A</code>	toggle block comment
<code>Alt+↑</code> / <code>Alt+↓</code>	move line up / down
<code>Shift+Alt+↓</code>	copy line down (duplicate)
<code>Ctrl+Shift+K</code>	delete line
<code>Ctrl+Enter</code>	insert line below
<code>Ctrl+]</code> / <code>Ctrl+[</code>	indent / outdent
<code>Shift+Alt+F</code>	format the document
<code>Ctrl+Space</code>	trigger suggestions
